

Albany County Sheriff's Office

Cold Weather SPECIAL! \$7.00

REMOTE VIDEO VISITATION

Sheriff Craig D. Apple Sr.

I am pleased to be able to offer inmate visitors at the Albany County Correctional Facility, a convenient and inexpensive optional alternative to contact visitation.

IP Web Visitor® is a correctional video visitation system that allows family and professionals to visit incarcerated individuals over the internet, from the convenience of their homes or offices.

CONVENIENT: conduct visits from the comfort of your home or office.

The *IP Web Visitor*® System is easy to use and requires no special

computer skills. Visits are inexpensive, typically far less costly both in time and money, when compared to traveling to the correctional facility.

IP Web Visitor® utilizes the power of the internet to deliver clear visitation sessions from home or office. Family members, attorneys and clergy can schedule visits and talk with loved ones and clients over the internet - eliminating the time and stress associated with travel to the correctional facility.

Cold Weather Special:
November 1st through December 31st. During these dates you can schedule a visit for any available date & time, for just \$7 for a 15 minute

general visit – normally \$10 for 15 minutes. Keep posted to the sheriff's website for future promotions.
