EMT & Paramedic Positions

Answering over 6000 calls annually, the EMS Division is a leader in cutting edge pre-hospital medicine. 75 full and part time employees staff 6 Medic Units and 4 BLS ambulances out of 5 stations. Our paramedics and EMTs provide advanced and basic life support first response and supplemental ambulance transport for a population of nearly 75,000 people in six different communities. In addition to providing fast and critical care to the public, the EMS unit provides personnel to support specialty units within the Sheriff's Office such as the Emergency Response and Search and Rescue Teams. Please visit the Albany County Civil Service website for employment information:
